

The AMS-5 Thermal Printer Series

sales@ams-gb.com
www.mailing-addressing-machines.co.uk

The AMS-5 thermal printing system can print over 10,000 address labels per hour and has a 4" print head which gives laser quality output without "flaking". It can produce address labels with the postage paid impression and senders return address in one pass. All are printed using labels that require no expensive ribbons or toners making the AMS-5 Thermal Printer a must for any production environment.

Features:

- ◆ 203 dpi print resolution
- ◆ "ACRP" – Active Ribbon Control & Positioning enhancement system
- ◆ Easy label loading and printer operation
- ◆ Ultra high reliability for minimum down- time

Specifications:

- ◆ Print Quality & Speed: 203 DPI – 7 inches per second
- ◆ Print Length: Maximum: 32 inches
- ◆ Technology: Thermal Transfer and Direct Thermal
- ◆ Media Sizes: Maximum: 8" long x 4.65" wide (Internal)
- ◆ Media Types: Roll or fanfold media; continuous or perforated die-cut labels, tags and tickets inside or outside wound Transparent (see through label gap) or reflective

- ◆ Dimensions / Weight: 260 x 452 x 256 (mm) – 12.5kg (Approx)
- ◆ Options: Autocutter, Peeler, External rewinders, Network interface, Flash Memory Card

Flexibility:

To ensure our printers are compatible with the majority of applications, we include an industry standard emulation in each printer and drivers are available for Windows 95, 98, 2000, XP and NT4 operating systems. This allows the user to use standard applications or a more sophisticated label design package with ease.
