

The AMS Automatic Tabbing Machines

The AMS 5000 range of tabbing machines is the professional choice in desk-top tabbing. Speed, flexibility, reliability and simplicity are all featured in the 5000 range from AMS.

With the 5002 you are able to apply either one or two tabs per mailing piece by using one or both of its self-centring tabbing heads. This machine can also be set up to run different tab styles in different heads at the same time.

Specification on the 5002 Tabber

- ◆ Tabs 15,000+ mailing pieces per hour
- ◆ Applies 1 or 2 tabs per mailing piece
- ◆ The tab mailing piece width can range from 127mm to 406mm wide. The tab mailing piece thickness can be a sheet of paper up to 6mm thick, printed, coated or non-coated stock
- ◆ Runs a variety of 25mm tabs: frosted (but not completely clear) & coloured, circles and rectangles, on rolls without tractor holes
- ◆ Built-in waste take-up spools
- ◆ Operates in-line with other table top label affixers and addressing printers
- ◆ Rugged steel construction ensures long and reliable operation
- ◆ AMS Conveyor stackers are available as an optional extra
- ◆ Weight: 25.5 kg (net)
- ◆ Dimensions: 584mm(w) x 279mm(d) x 483mm(h)
- ◆ Counter: Re-settable item counter
