Collating Unit

The Cayman range meets the demands of many applications because of its versatility and flexibility.

The Cayman is a continuously running heavy duty machine, which provides a smooth high-speed face-up throughput for the inserts and envelopes.

As with all Grützmacher envelope inserting systems the Cayman has many configuration possibilities to suit a wide variety of customer applications.

The Grützmacher Cayman envelope inserter can be fitted with a production tower collator folder which can handle up to 6 sheets folded together for DL or C5 work, or up to 30 sheets for C4 work whether by multiple feeding, OMR, BCR, OCR or 2D reading.

With a machine cycle speed of up to 4.200 items per hour, envelope sizes from DL to C4, the Cayman provides a precise, flexible and reliable system at a low cost of ownership.
