

When sending jobs to the Astro printers if you get an error message when downloading fonts do the following:

To enable large font download, in Windows Regedit change the following value:

To open Regedit, in Windows click 'Start', 'Run' they type regedit and then click OK.

Open the following path by clicking on the '+' next to each option.

HKEY_CURRENT_USER\Software\Astro Machine Corp\AstroJet 1000\Timing\PostFontDownloadDelay

Select your printer model no. where it shows Astrojet 1000.

Double click 'PostFontDownloadDelay' or right click on it and select '**Modify**' (not Modify Binary Data)

Change to 'Decimal', the default value is 70, change this to 700
