

## AMS AJ2800 ENVELOPE PRINTER

### Improves the efficiency and presentation of your mailing processes

#### What Does It Do?

The AMS AJ2800 envelope printer saves you money by dramatically reducing the time it takes to print addresses on to envelopes. It enables you to increase your response rate as personalised mail is processed quickly and reaches your customer sooner. This powerful and speedy printer can print up to 26,000 DL envelopes an hour, is remarkably quicker than a shuttle head printer and eliminates the need to manually stick labels onto envelopes.

Using 8 HP-45 ink cartridges, the economical machine is so simple to use and can print on many types of documents up to 10mm in thickness including pre-packed envelopes. It has a built in feeder and a 100mm print area which can be adjusted to your requirements.

#### How Does It Work?

The unique system uses fixed head ink cartridges, this means the printer moves the mail, not the printer head, enabling it to print at constant speed whatever the media. The printer has parallel and USB ports as well as a Windows PCL Driver. It will give years of trouble free printing. The printer eliminates stitch lines so long addresses can be printed flawlessly at the same time as a postage paid impression (PPI) and return address.

#### Why Do I Need It?

If you need to print addresses, logos, PPIs, barcodes and message lines and you need to process production volumes of mail quickly, then the fixed head AJ2800 system will provide outstanding performance for your money. The robust machine has been designed to last and is part of the AMS AJ range of quality envelope printers that has led the industry for nearly two decades.

#### Key Features:

- High Speed Professional Desktop Printer
- Can Print Up To 26,000 DL envelopes an hour
- Uses 8 Fixed Head Ink Cartridges
- Print Quality up to 600 DPI
- 4" (100mm) of Print in One Pass
- HP-45 Cartridge Technology
- Windows™ PCL Driver
- Parallel and USB ports
- Unique Top-load Feed Mechanism
- Solid Steel Construction & User Friendly Design
- Height Adjustable Print Carriage

SPECIFICATIONS	
Print Technology	Thermal Inkjet HP
Address Speed	Up to 26,000/hr – Speeds are dependent on application
Print Quality (Dots Per Inch)	High Quality 600 x 600 dpi Standard Quality 600 x 300 dpi Letter Quality 600 x 200 dpi Draft Quality 600 x 150 dpi
Image Area	4" X 17" (101.6mm x 431.8mm)
Print Orientation	Normal and Reverse
Ink Monitor	Visible on display
Fonts	All TrueType fonts available on PC
Prints	Prints text, graphics, logos and barcodes
Material Size	Length – 5" to 17" (127mm x 431.8mm) Width – 3" to 14.5" (76.2mm x 368.30mm)
Material Thickness	Up to 3/8" (10mm)
Feeder Capacity	Up to 750 DL envelopes
Memory	12 MB
Software Drivers	Windows™
PC Interface	Parallel and USB
Counters	One resettable, one lifetime counter
TECHNICAL INFORMATION	
Machine Dimensions	23" H x 28" L x 22" W (584mm H x 711mm L x 559mm W)
Machine Weight	80 lbs./ 36.4 kg
Power	230 VAC 50/60 Hz

### Why Choose An AMS Envelope Printer?

AMS is one of the UK's leading suppliers of mailroom equipment. As well as having a dedicated team of knowledgeable experts to offer advice and bespoke solutions to suit your mailing needs, we have a well-trained customer support team and highly skilled team of field engineers to support you after your purchase.

This reliable and efficient after-care support service is provided to ensure you get the most out of your purchase. We also offer a comprehensive range of technical support and service packages that cover both equipment and software. Our maintenance packages are an economical way to maximise performance and the longevity of your machine, overall resulting in peace of mind.

### OPTIONAL EXTRAS

#### FlexMail Software

FlexMail is a variable data design and printing solution, unmatched in its versatility and performance. FlexMail lets you connect to your data, prepare the data for your project, design your output, and print at high quality and speed on any printer.

There is no need for specialised personnel to design and/or operate the software. FlexMail is easy to use because of its intuitive user interface incorporating ribbons, tooltips, context sensitive help, and wizards that take users through more complex tasks. Because of its close similarity to the latest Microsoft Office, it is very easy to understand FlexMail's user interface and operation.

#### Optional Equipment

AMS manufacture a range of machine cabinets that will easily support your mailing equipment as well as provide ample storage space. AMS also manufacturer a range of conveyor stackers and dryers to complement your equipment thereby making it easier and more efficient to produce your mailings.

#### Mailing Supplies

AMS supply a wide range of low-cost consumables to suit our mailing equipment including inkjet cartridges and envelopes.
