

ATS-12 TABBING MACHINE

Tab Open-Edged Mail Easily, Efficiently and Economically

What Does It Do?

The new ATS-12 tabbing machine is the most efficient and economical tabber around. It can quickly and easily apply tabs to folded mailpieces, making it an ideal way to deliver eye-catching mail without the risk of it being opened in transit. The small and versatile tabber can automatically apply adhesive tabs from 15.5mm (5/8"inch) in size to material up to 4.76mm in thickness. It can apply one tab per mailing piece and up to 7,000 mailings per hour can be tabbed.

How It Works

The unique benefit of the ATS-12 tabber is that it comes with a built in feeder, this means there are no additional costs if using it as a stand alone product. The feeder feeds mail pieces into the tabber where it contacts an adhesive tab then travels through a set of rollers where the tab is tightly folded and sealed, creating a mail-ready piece. Accuracy is also important and tabs are folded tight to the edge of the piece, without drifting from left to right. Depending on document specifications, the mailpiece can be fed through in different directions, to apply tabs in various locations.

Why Do I Need It?

Tabbing is an economical and environmentally friendly alternative to using traditional envelopes in direct mail campaigns. Tabs can be placed on a wide variety of open-ended media including mail pieces, folded stock, double postcards, newsletters and booklets. Not only do tabs ensure closure, they are a non-intrusive option and let you take advantage of Royal Mail postal discounts due to the mailings being lightweight. The ATS-12 tabber is capable of short runs as well as mass mailings, making it perfect for office users, mailing houses, commercial and industrial users. It can be used on its own or in-line with an AMS conveyor, an automatic labelling machine and an address printer.

Key Features:

- **Automatically applies adhesive tabs to open-ended mail**
- **Easy to set-up and operate**
- **Seals a variety of media at speeds up to 7,000 pieces per hour**
- **Operates in-line or stands alone with its own feeder**
- **Accepts tabs from 15.5mm to 37.5mm**
- **Accommodates rolls up to 10,000 tabs**
- **Handles mail pieces from 76mm x 127mm to as large as 431mm x 457mm**

SPECIFICATIONS

Speed	Up to 7,000 per hour - speeds are dependant on application
Tab Sizes	Approx 15.5mm(5/8inch) to 37.5mm (1.5inch) - Other sizes possible after test
Tab Types	Clear, Frosted, Opaque, Coloured, Circles, Squares
Reel Capacity	10,000 tabs
Counters	One Resettable 5-digit LCD
Material Sizes	Min - 76mm x 127mm (3 inch W x 5inch L) Max - 431mm x 457mm (17 inch W x 18inch L)
Material Thickness	Up to 4.76mm
Feeder	Top load, bottom feed for continuous operation

TECHNICAL INFORMATION

Machine Dimensions	(W)533mm x (L)216mm x (H)496mm
Machine Weight	20kg
Power	220 VAC 50Hz

OPTIONAL EXTRAS

Optional Equipment

AMS manufacture a range of machine cabinets that will easily support your mailing equipment as well as provide ample storage space. AMS also manufacturer a range of conveyor stackers and dryers to complement your equipment thereby making it easier and more efficient to produce your mailings. A Catcher Tray is also a great optional feature that provides a low-volume alternative to a conveyor for small jobs.

Mailing Supplies

AMS supply a wide range of low-cost consumables to suit our mailing equipment including tabs.

Tabs come in many colours and there are even clear, frosted , perforated and opaque options to suit the design of your mailing.

Why Choose An AMS Tabbing Machine?

AMS is one of the UK's leading suppliers of mailroom equipment. As well as having a dedicated team of knowledgeable experts to offer advice and bespoke solutions to suit your mailing needs, we have a well-trained customer support team and highly skilled team of field engineers to support you after your purchase.

This reliable and efficient after-care support service is provided to ensure you get the most out of your purchase. We also offer a comprehensive range of technical support and service packages that cover both equipment and software. Our maintenance packages are an economical way to maximise performance and the longevity of your machine, overall resulting in peace of mind.
