

AMS CLASSIC SHRINK WRAPPING SYSTEM

Improves the security and presentation of your products

What Does It Do?

The AMS Classic shrink wrap machine helps to protect products whilst still presenting them in a clear, appealing way. The shrink film also protects the products from water damage and strengthens the overall protection of products.

Products can be individually placed in to the machine and shrink wrapped using any kind of poly film. Up to 300 packs per hour can be shrink wrapped and the Classic can be easily moved around or used on already existent desks or tables. The Classic has a large sealing area and can wrap items up to 500mm in length, 380mm in width and 180mm depth.

How Does It Work?

The easy to use, low cost Classic shrink wrap machine works with the traditional system of thermoshrinking with centerfolded poly film suitable to safely pack a wide range of products. The body of the machine is made by a material alternative to steel which guarantees an excellent result in mechanical performances, thermal insulation and high resistance to the abrasion. The machine has a Teflon coated sealing bar as well as an air cooling sealing bar to ensure the wrap is cool when removed from the machine.

Why Do I Need It?

There are 100's of reasons companies need to shrink wrap products. Items such as stationery, CDs, computer software, boxed games, gift packs, books, print finishing, collations of magazines or boxes, piles of garments, laundry, industrial products, display boxes, the list goes on. Call us for a free demonstration on 01992 460 111.

Key Features:

- Ideal for protecting products and presenting them in a clear way
- Up to 300 packs per hour can be shrink wrapped
- Strong and built to last
- Safe and easy to use
- Large sealing area
- Internal cooling air pump
- 10 programme memory
- Micro perforation system
- Items up to 500mm(h) 380mm(w) 180mm(d) can be wrapped

SPECIFICATIONS	
Speed	Up to 300 products per hour – Speeds are dependant upon applications and operators.
Material Size	Max (W)380mm (L)500mm
Wrapping Film Types	Polyolefin
Film Roll Dimensions	Max 250mm x 560mm
Power Supply	230Vac 50-60Hz
Machine Weight	113kg
Machine Dimensions with Open Hood	1140mm x 850mm x 1350mm
Machine Dimensions with Closed Hood	1140mm x 850mm x 1150mm

Why Choose An AMS Shrink Wrapping System?

AMS is one of the UK's leading suppliers of mailroom equipment. As well as having a dedicated team of knowledgeable experts to offer advice and bespoke solutions to suit your mailing needs, we have a well-trained customer support team and highly skilled team of field engineers to support you after your purchase.

This reliable and efficient after-care support service is provided to ensure you get the most out of your purchase. We also offer a comprehensive range of technical support and service packages that cover both equipment and software. Our maintenance packages are an economical way to maximise performance and the longevity of your machine, overall resulting in peace of mind.
