

## PF215 FOLDING MACHINE

### Improves the efficiency and presentation of your mailing processes

#### What Does It Do?

The AMS folding machine takes much of the manual labour out of your mailing process, turning out material for a mass mailing in minutes rather than hours - and prevent painful paper cuts, too.

The AMS folding machine is the ultimate in simple push button technology operation. But don't be fooled by its good looks and office type appearance. Underneath it is one of the most reliable and well built systems on the market and can happily sit in any type of commercial print environment folding large volumes of work at around 9,000 sheets per hour. It can fold paper sizes from A6 to A3 and can hold up to 500 sheets in the feed tray.

#### Easy To Use

The compact machine is so simple to use, all you do is load your paper then press the button to go, it even has a test button to check the first 2 sheets are folded correctly. It enables you to choose from 7 types of folds. There is also a versatile counter with "Addition" "Subtraction" and "Repeat" functions. All machines have removable rollers so they are easy to replace when needed.

#### Why Do I Need It?

The AMS folding machine suits the requirements of most office based customers whether the need is to fold 500 invoices or statements a month to the larger user who has a requirement for large volumes of letters or flyers to be folded.

#### Key Features:

- **A3 Semi-automatic Folder**
- **500 sheet feed tray (64gsm Bond)**
- **Rough paper, Bond, Duplicating paper, Recycled paper, Drawing paper**
- **Paper weight from 46gsm up to 160gsm**
- **Fold Types: single, letter, zig-zag, double-parallel, fold-out, gate and others**
- **Speeds of up to 10,000 per hour**
- **Friction feed via 3 serrated drive rollers**
- **Skew adjustment**
- **Extension type paper eject tray**
- **Digital counter with add, subtract plus auto-repeat**
- **Removable rollers for easy replacement**
- **Front cover safety cut-out**

# AMS PF215 AUTOMATIC PAPER FOLDING MACHINE SPECIFICATIONS

SPECIFICATIONS	
Paper Sizes	B7 (single fold only) to A3
Paper Weight	46-105gsm (up to 160gsm for single fold)
Paper Quality	Rough paper, bond, duplicating paper, recycled paper, drawing paper
Fold Types	Single, Letter, Zig-zag, Fold-out, Double-parallel, Gate and others
Cross Fold	Yes
Paper Feeding System	Friction feed by 3 rubber rollers
Skew Adjustment	Yes
